THE STATE OF NEW HAMPSHIRE

TOWN WARRANT

Cheshire, ss:

To the inhabitants of the Town of Walpole qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said town on Tuesday, the 10th day of March next, 1959 at nine o'clock in the forenoon, to act on the following subjects:

Article 1. To choose a Town Clerk, one Selectman, for three years, Auditors, Town Treasurer, Road Agent, Collector of Taxes, Trustees of Public Funds, Surveyors of Wood and Lumber, Fence Viewers and all other necessary officers.

Article 2. To raise money for the support of the town poor, for town library, for cemeteries, to build and repair highways and bridges, and for such other current expenses as may accrue.

Article 3. To see if the town will vote to authorize its Selectmen to raise money on notes of the town for current expenses in anticipation of taxes.

Article 4. To see if the town will vote to allow a discount on taxes as has been the custom in previous years.

Article 5. To see if the town will vote to accept such funds or bequests as have been left to it during the past year.

Article 6. To see if the Town will authorize its Selectmen to administer and dispose of and deed any real estate acquired by the Town by Tax Collectors' deeds after being advertised.

Article 7. To see if the town will vote to raise and appropriate the sum of \$500.00 (\$250.00 for North Walpole and \$250.00 for Walpole) to support the recreation program in each end of the town. By petition.

Article 8. To see if the town will vote to raise and appropriate the sum of \$1,500.00 to continue the work of compiling information and writing the new volume of the History of Walpole. By petition.

Article 9. To see if the town will vote to raise \$100.00 for Dutch elm disease control and shade tree protection work in 1959.

Article 10. "To see if the town will vote to raise \$25.00 to be expended in cooperation with the New Hampshire Forestry and Recreation Commission for the opening and maintaing of trails and old roads for forest fire protection. The New Hampshire Forestry and Recreation Commission to provide a matching sum not in excess of \$25.00 for this purpose."

Article 11. To see if the town will vote to raise and appropriate the sum of \$486.00 (1/100th of 1% of the valuation of the town) to the Monadnock Region Association of Southwestern New Hampshire for issuance and distribution of printed matter, newspaper and magazine advertising and by other means of calling attention to the resources and natural advantages of the town, in cooperation with the other thirty-seven towns of the Monadnock Region.

Article 12. To see if the Town will raise and appropriate the sum of \$330.00 as its fair share of the operating cost of the Elliot Community Hospital.

Article 13. To see if the Town will authorize the Selectmen to accept a deed from Louis S. Ballam, Administrator of the Estate of Andrew Barr, deceased, of certain real estate owned by the Andrew Barr Estate in payment of any and all moneys due the Town of Walpole from the Andrew Barr Estate,

Article 14. To transact any other business that may legally come before said meeting.

Polls to remain open until 6 p.m. or later if so voted.

Given under our hands this 13th day of February, 1959.

JOHN E. AYLWARD,
LOUIS S. BALLAM,
LAWRENCE W. GRAVES,

Selectmen of Walpole.

A true copy attest:

JOHN E. AYLWARD,
LOUIS S. BALLAM,
LAWRENCE W. GRAVES,

Selectmen of Walpole.

Walpole junior	60
----------------	----

North Walpole	195
---------------	-----

Many extra books were borrowed from the Bookmobile, and an exchange with Charlestown of light fiction, detective and Westerns was carried on.

Through the Sheiling Trust, which is administered by the State Library, we are purchasing a number of books, together with Charlestown, Alstead, Langdon and Acworth. These are books of unusual interest which, under ordinary circumstances we might not be able to afford to buy separately.

Close co-operation with our School is being maintained with the valuable help of our librarian. Over one hundred books on varied subjects were borrowed from the State Library.

The Committee wishes to express its thanks for the many gifts of books received during the year.

MARY H. VAN DEMARK, Chairman.

REPORT OF THE TOWN HISTORY COMMITTEE

Progress is continuing on the Town History, although of necessity it is, of course, slow progress. The hours that can be devoted to it are not as many as those who are actively working on it would desire; and research work is by its very nature a slow process of digging. When the book is finished, we hope to have a history of interest and of value.

The basic groundwork has reached the stage where the outlook becomes more encouraging. Our first aim was to construct a map that would show all the roads that have been built in the town with the houses and cellar-holes along with them. This map to be of any use must show the old roads along with the new and have a key that will make the map intelligent to us of today and to our descendants in the years to come. We also needed a map to show the early divisions of the land in the town. We are glad to report that this is nearing completion.

Work has been started on the genealogical section of the book. This statistical work requires detailed accuracy on the vital statistics of each family, and any information of that nature would be gratefully received from every family in town.

Often in delving into the past a great deal of time can be saved by consulting with those who remember the past, or who have had a life interest in historical facts. One to whom we owe a great deal is Mrs. Edith Tiffany who has generously turned over to us her accumulated work of the past and who still devotes many hours of her time to the work. Her help has been invaluable. Mrs. Marion Weymouth has been another whose memory and generosity in sharing it with us has been of the greatest assistance. We mention these two, but we could list many

others to whom we are grateful for the help they have given.

Martha Frizzell is to be congratulated on the way she has approached the writing of this history and on her accomplishments to date. Under her direction the work is going forward steadily and efficiently. We are fortunate to have the use of her experience. However, experience and know-how do not go far in compiling a history unless there is material with which to work. Many of you may have such material in your attics stored away in trunks. We hope you will share it with the Town History Committee.

ANITA H. ALDRICH,
Chairman, Town History Committee

THE STATE OF NEW HAMPSHIRE

SCHOOL WARRANT

To the inhabitants of the school district of the Town of Walpole qualified to vote in district affairs:

You are hereby notified to meet in Walpole High School Hubbard Gymnasium in said district on the 10th day of March, 1959, at 7:30 in the evening to act upon the following subjects:

1. To choose a moderator for the ensuing year.

2. To choose a clerk for the ensuing year.
3. To choose two members of the school board for the ensuing three years.
4. To choose a treasurer for the ensuing year.
5. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.
6. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.
7. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the salaries of school district officials, and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
8. To see if the district will vote to authorize the school board to make application for and to accept, on behalf of the district, any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire.
9. To see if the district will authorize the school board to enter into a contract with the school district of Rockingham, Vermont, for payment of high school tuition.
10. To see if the School District of the Town of Walpole shall adopt the Australian ballot system for the election of School Board members.
11. To transact any other business that may legally come before this meeting.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Walpole:

I herewith submit my annual report as your superintendent of schools:

Survival and success in the years ahead will be influenced to a large extent by the choices we make in regard to what we as a people consider to be valuable. The support given to the educational program in a community is a reflection of the value placed on education by its people.

Young people soon discover what their elders really value.

More than financial support of the school program is needed. There is a need for cooperative effort of parents, citizens and teachers to promote a climate in all phases of a youngster's life that will encourage and demand the best that he or she is capable of doing. The help and influence of parents is needed to aggressively support the school's efforts to promote excellence of performance.

The committees that were working on the Oral Language Arts Syllabus as a follow-up of the 1957 Workshop completed their outlines; syllabi were adopted and placed in use this year for grades one through twelve.

The Language Arts Workshop held this year placed emphasis on the written program. Miss Helen O'Leary, Associate Professor of Education at the University of Massachusetts was the keynote speaker and principal consultant. Other consultants contributing to the success of the Workshop were Miss Marie Capron, Supervisor of Student Teaching at Keene Teachers College; Miss Amy Mayo, Educational Consultant for the American Book Company and Mr. Normand Pacquette, Head of the English Department at Stevens High School, Claremont, N.H.

Committees are working to complete a Written Language Arts Syllabus for grades one through twelve and it is hoped that it will be completed by the end of the school year.

Mathematics and Science teachers conducted a three-day workshop at the same time the Language Arts Workshop was in progress. This group studied mathematics teaching methods and procedures and are currently working on a mathematics syllabus for grades seven and eight.

It is difficult to keep budgets from increasing in a situation where costs continue to rise and the number of pupils is also increasing. We do without some things that would improve the educational program. To include them would mean additional increases in the budget, however, the omissions are such that no major difficulty is expected. The major increase is in teacher salaries. Part of this increase is due to the addition of one-half of a teacher's time to take the additional session of kindergarten, part

is due to the need of an additional teacher whose time will be utilized partly in Art classes, remedial work and to relieve a probable schedule and overcrowding difficulty in high school classes. These raises will result in the Walpole average salary for 1959-60 being approximately \$100. more than the state average for 1958-59. The comparison is on a state wide basis. However, the salaries in nearby communities are those with which we have our principal competition and these for the most part are higher than the state average. Even though substantial raises are planned we will still be in the position of being below the average for the state as other districts are giving raises and these will increase the state average for 1959-60.

The teacher shortage which gives no indication of improving places prospective teachers in a position that allows them to be selective. The salary, teacher load, location of the community, what the community has to offer in terms of social activities, shopping facilities, and transportation are a few of their considerations. If these factors are questionable then the amount of compensation becomes a deciding factor.

Next year is the first year of full foreign language and mathematics programs as planned two years ago. This change means a realignment of the subjects being taught by various teachers and also subjects being selected by pupils. This means that there is a need for a part time high school teacher that can be met by using part of the time of the additional teacher mentioned previously.

It is undoubtedly a hardship to pay the taxes necessary to provide the means to insure a good educational program. However, it is doubtful that there is any better way of insuring that progress will be made and that we can be assured that our way of life will be maintained.

Mrs. Carlene D. Enderson replaced Mrs. Anne Lamothe as a fifth grade teacher. Mrs. Enderson received her degree from Plymouth Teachers College and formerly taught in Littleton, N.H. Miss Elizabeth Jason replaced Mr. Richard Lamerand as Social Science teacher. Miss Jason received her degree from the University of Massa-

chusetts and did her practice teaching in Belmont, Massachusetts. Mrs. Arlene M. Kathan replaced Mrs. Elizabeth Staples as a second grade teacher. Mrs. Kathan is a graduate of Castleton Teachers College and formerly taught in Williamstown, Vermont. Miss Marie C. Ludgate replaced Mr. Nils Peterson as a sixth grade teacher. Miss Ludgate received her degree from Keene Teachers College and did her practice teaching in Keene, N.H. Mr. Richard T. McCarthy is an additional teacher in the area of Social Science, Mathematics, and also assists in physical education and coaching. Mr. McCarthy received his degree from Plymouth Teachers College. Mr. Anthony J. Rando replaced Mr. Roy Miner and Miss Rosemarie Niles as music supervisor. Mr. Rando received his degree from the New England Conservatory of Music and did his practice teaching in Malden, Mass. Mr. Sheldon S. Sawyer replaced Mr. Raymond Presby as Vocational Agriculture teacher. Mr. Sawyer received his degree from the University of New Hampshire and did his practice teaching in Keene, N.H. Mrs. Diane B. Tolis replaced Mrs. Elizabeth Chickering as a first grade teacher. Mrs. Tolis received her degree from Plymouth Teachers College and formerly taught in Berlin, Conn.

Increased enrollment resulted in our receiving \$1,423.20 State Foundation Aid this year. This amount was used to reduce the amount to be raised by taxation.

At the time this is being written information is still not available as to the action that will be taken by the State Board of Education in regard to whether or not North Walpole ninth grade pupils will be assigned to attend the Walpole High School in 1959-1960. If the North Walpole high school pupils do attend the Walpole High School additional building facilities will be needed much sooner than originally anticipated.

At the time the six-room elementary school was built in the Village, having a kindergarten was not included in the plans. The result has been that a room intended for use to take care of high school increased enrollment has been used for a first grade room to allow kindergarten

to be held in the new elementary school. This room is definitely needed for high school use this coming year. The temporary solution is to divide a room in the new elementary building and use it to house the divisions of the smallest class in grades one to three which now appears to be the first grade.

At the time of building the small elementary school and doing alterations in the larger building it was known that the cafeteria needed to be expanded. However, the expense of doing this was postponed.

There is also a need for expansion of our shop facilities which has been mentioned in previous reports. The shop problem at present is in the area of the seventh and eighth grades and it is planned to have shop for only the eighth grade next year. There is also a question as to which subjects will be better to offer for our pupils to meet their needs—Vocational Agriculture or Industrial Arts. Music needs a room where it will not disturb other classes. All of these needs cannot be met at once. The first step I would recommend is to take care of the boys' vocational problem, the need for more high school space and a music room and postpone, if possible, the expansion of the cafeteria until such a time as the second unit of the elementary building can be built.

There are high school pupils who are capable of taking additional subjects who are not availing themselves of the opportunity. There are those who have been unable to meet the standards required to take and continue with this opportunity program. It is my considered judgement that the value of the educational advantages of taking on more work and really calling on the so-called latent ability is being missed or avoided by too many of our pupils.

The principals' reports cover changes made in their respective schools, however, I would like to report that major improvements have been and are being made in English, Guidance, Mathematics, Science and foreign languages and a start made in the field of Art. The pilot elementary science program in North Walpole has developed aids that are being used in other schools in the Super-

visory Union and the present plans of an enrichment program for elementary grades at the Walpole Village School has similar possibilities.

Enrollment, January 5, 1959:

Grade	Knd.	1	2	3	4	5	6	7	8	9	10	11	12	—	Tl.

I want to thank the school board, teachers, parents, pupils and citizens for their cooperation.

ELLIOTT W. KEACH,
Superintendent of Schools.

REPORT OF THE SCHOOL NURSE FOR WALPOLE AND NORTH WALPOLE

The following is my report for the year ending June 30, 1958.

337 pupils were examined by Dr. William Tatem.

The following defects were noted and reported

9 pupils with wax plugs or inflamed ears.

3 pupils with enlarged glands.

1 pupil with congested lungs.

1 pupil with hernia.

79 Students in need of dental care.

676 pupils had vision tests given by the school nurse.

33 pupils received vision notices.

269 pupils had hearing tests given by the school nurse.

680 pupils were weighed and measured by the school nurse.

223 pupils attended the polio clinics.

44 pupils attended the pre-registration clinics.

- 2 pupils under orthopedic care.
- 80 pupils were checked for smallpox vaccination, and necessary follow-up where needed.
- 316 pupils were patch tested for TB.
- 69 individuals were x-rayed.

Dental program—dental health education in classroom October and January.

The aims of the School Nurse are numerous, to list a few:

To instruct children and young people so that they may conserve and improve their own health, and thus be more able to secure that abundant vigor and vitality which are a foundation for the greatest possible happiness and service in personal, family, and community life.

To promote satisfactory understandings, attitudes, and ways of behaving among parents and other adults so that they may maintain and improve the Health of the home and community.

To improve the individual and the community life of the future; to work toward a better second generation, and a still better third generation; to build a healthier and fitter nation and world.

I do wish to take this opportunity to thank all who helped make my year a successful one.

Respectfully submitted,

MRS. ELLEN PEARCE, R. N.

REPORT OF PRINCIPAL NORTH WALPOLE SCHOOL

Mr. Elliott W. Keach
Superintendent of Schools
Walpole, New Hampshire

Dear Sir:

I submit herewith my annual report as Principal of North Walpole School.

SCHOLARSHIP

Faculty meetings this year have been devoted to the new science program, started this year in grades one through six. Topics such as objectives of the program,

materials that can be used as "Science Starters," and place of experiences and experiments have been discussed.

I wish to commend the teachers for the way they have cooperated and put into effect the program.

Our testing program, consisting of Intelligence Tests for grades one, three, five and seven, and Achievement Tests for all the grades was administered by the teachers again this year. The I.Q. test provided a diagnostic evaluation of the mental abilities of each child; identified outstanding pupils of either high or low ability who need special educational procedures; and enabled the teacher to understand the general mental level of the Class as a guide in the selection of instructional materials and experiences.

The teachers by making use of the Achievement tests results were able to discover the difficulties and shortages of each child in the skills which are essential for success in pupil activities. The results also provided a basis for planning a remedial program to meet the needs of the students, and a basis for grouping them according to their needs for remedial instruction. The tests revealed to the pupils those skills in which they needed special work.

Tests are a means of finding out what is happening to pupils in order that further progress may be made. The emphasis on the individual requires not only a general knowledge of what is happening to the group, but also specific knowledge for each individual. As devices for obtaining such information, the I.Q. and Achievement Tests are of primary importance in the evaluation program of the school.

ORGANIZATION

Our curriculum underwent several changes with the beginning of the school year in September. Science was placed in the primary and intermediate grades, meeting three times a week for 30 minutes each period. A Conversation Period and Educational Games Period were added to the curriculum. It is felt that with these additions the school is meeting the needs of the student body better than before.

The Science Program is based on the experimental method, plus some supplementary reading, field trips, and much observation. It is directed at those scientific matters which confront the child as he grows and which will affect his daily life. It is hoped, by the sixth grade, that the pupil will have a fundamental grounding in the physical and biological sciences that will give him a better understanding of the world he lives in.

An evaluation of the program was made at the half year, and the necessary adjustments, as proposed by the teachers, were made so that the program would function better and the desired goals attained.

The Conversation Period which meets once a week, the pupils in an informal setting, talk on a topic of their choice. Grammar, good usage, and vocabulary are checked by the teacher. The students are thus given an opportunity to speak and improve their speech. The teachers concur with me in stating that this addition to our curriculum has been very beneficial to our pupils.

Educational Games, reviewing the school work of the week, are played the last period on Friday, whenever there is no General Assembly. These games have a twofold purpose: they not only strengthen in the minds of the children the areas covered during the week but also they indicate to the teachers and pupils the topics that need to be re-taught and learned.

Social parties, plays, musicals, and athletics have played an important part in giving our students a well-rounded educational program. Through these activities plus their academic subjects the school aims to educate the whole child, mentally, socially, morally, and physically.

In closing, I wish to thank the School Board, Superintendent, the Teachers of North Walpole and the citizens of the town for their cooperation and support the past year.

Respectfully submitted,

JOSEPH Z. DUBE, Principal

PRINCIPALS' REPORT
WALPOLE VILLAGE SCHOOLS

Mr. Elliot Keach
Superintendent of Schools
Walpole, New Hampshire
Dear Mr. Keach

I herewith submit my annual report
Organization:

The organization of the schools remains basically the same as previous years. Grades kindergarten through three are housed in the new elementary school.

Grades four through twelve are housed in the larger building. Grades four through six have been re-organized this year by grouping the children homogenously. The bases used to group them were the results of the California Achievement Tests and the Scholastic Ability Tests. Indications are that the plan has worked out very satisfactorily. I wish to take this opportunity to personally thank both teachers, pupils, and parents of the intermediate grades for their cooperation in making this plan successful.

It is planned to supplement the present course of studies by offering an enrichment program to the students in grades four, five and six. The program is in the formulative stage at the present time but it is the intention to include studies of about six to eight weeks duration in such areas as mechanics of expression, oral and written, typing, mathematics, classical literature and possibly languages. Miss Rising will be the instructor in this program. Since this will be a new activity in the system, it will be necessary to operate in a flexible manner until we are able to determine exactly in which supplemental areas we should concentrate our efforts. It is not intended that this should become a remedial program but rather one for enlargement of skills.

Grades seven through twelve are also arranged homogenously and housed in the remainder of the school.

The operating schedule for the junior and senior high

school is divided into eight forty-five minute periods this year which allows us to meet the suggested state standards of two hundred and twenty-five minutes for such classes as English and mathematics. The other requirements for class time are met with this type of schedule. Period eight is generally devoted to activities such as band, chorus, Thespian Club, personal typing, and Science Club. Assemblies, class meetings, and the year-book meet on alternate Thursdays, period eight.

Music Department: Our music supervision for the kindergarten-twelve has been developing the fundamentals of music, vocal, and instrumental in grades kindergarten-four, grades six-eight through musical projects. In grades nine-twelve the emphasis has been on the chorus and band. The interest developed in the band has been very evident by their appearance at the soccer and basketball games.

The music organization has started a fund for the purpose of buying new uniforms for the band. The project probably will take two years to realize its goal due to the large sum required to outfit approximately forty members.

The department has started the formation of a musical library available to the district.

ATHLETIC DEPARTMENT: Soccer was introduced this year and we competed in the Southwestern League. We had an effective first year team that won a fair share of its games. Physical Fitness Tests were also used during the physical education period for boys this year. Considerable interest and accomplishment was shown by the larger per cent of the boys who participated. It is planned to continue this testing program on the basis of three times per year and to include a testing program for the high school girls.

LIBRARY: Our library area has made considerable gains this past year. Several additional reference volumes were added, namely the Dictionary of American Biographies, The Collier's Encyclopedias, The Childcraft Encyclopedias, as well as a large number of science and

mathematics reference books. We also have received numerous books as gifts from Mr. Kolvoord, Mr. Cabot, Mr. and Mrs. Brennan, Mr. and Mrs. Hoyt, Mrs. Macnaughtan, and students.

Nearly all of the books have been catalogued and properly shelved according to the Dewey Decimal System. This was accomplished mainly through the voluntary efforts of Mrs. Harris, Mrs. Buttrick, Mrs. Miller, Mrs. Andros, Mrs. Macnaughtan, and several students.

Contributions by the P.T.A., D.A.R., and N.P. Club have been appreciated and have made it possible for us to expand this supplemental educational area.

It is planned to continue the general expansion of the library facilities at least one more year and then add volumes on a more selective basis. The fictional area as well as the non-fictional area needs considerable strengthening.

It also seems pertinent to point out that when an addition to the building is planned that it should include an area that would be considerably larger than the present library. This will provide space for individual study and provide a reading room.

Arrangements have been made through Miss Graves, the town librarian, whereby our elementary grades may have the advantages of the services given by the area bookmobile. It is hoped that the arrangement will work out satisfactorily and that we can further supplement our elementary library program.

We also have been able to avail ourselves of the State Science Traveling Library and the Red Cross Library kits which are loaned to schools on a rotating basis. Students and teachers also have made use of the state library lending system to schools.

GUIDANCE: This year we have been able to establish the guidance phase of the educational system as a separate department. The guidance director has been devoting the majority of his time counseling the senior students regarding their future academic and vocational plans. The nature of his position makes it necessary for him to

spend considerable time becoming familiar with the admission requirements of the post secondary schools, determining if students qualify, and then making arrangements for conferences between the students, parents, and school officials concerned.

Vocationally speaking it is necessary for him to follow about the same procedure with slight variations.

At the present time he is interviewing and scheduling the probable incoming freshmen in their course selections for next year.

Another phase of his work has been arranging the University of New Hampshire test battery for the freshmen, sophomores, and juniors. He also arranged for the College Board Qualifying Test which was given to the juniors and seniors. The interpretation of these test results to the students and parents also is an important duty of the guidance department.

VOCATIONAL AREAS: There are 93 students enrolled in the Home Economics, Vocational, Agriculture, and Commercial Courses. This means that 71 per cent of our total student body are participating in this area. With the emphasis on the academic courses i.e. mathematics, science, and languages, we must not lose sight of this so called teminal area and the important part it contributes to students enrolled there.

A ten year study has been made in regard to the number of students enrolled in the Vocational Agriculture courses. The results are on file in the office.

A course in Personal Typing has been started this year for students who are unable to take Typing I and wish to learn the fundamentals of typing. There are sixteen pupils enrolled in this non-credit, twice a week course which is offered period eight.

CURRICULUM CHANGES: This year we offered Physics and Chemistry simultaneously rather than on an alternating basis. Including General Science and Biology there are a total number of 70 students enrolled in science courses which is 54 per cent of the student body.

The mathematics area was expanded in this course in

General Mathematics this year and there are 25 students enrolled in this course. Algebra I, Algebra II, Geometry, and Senior Mathematics were also scheduled this year. There are 105 students enrolled in these courses which is 81 per cent of the student body.

It is planned to offer advanced mathematics or trigonometry, solid geometry, and fundamentals of analytical geometry, on a non-alternating basis next year. This completes the plans, made several years ago, to obtain the desired sequence of courses in the mathematics department.

The foreign language department offerings this year included Latin I, Latin II, and French I. There are 37 students enrolled in these courses which is 21 per cent of the student body.

It is planned to offer Latin I, II, French I, II, and III next year and do away with the alternation in this department. In order to develop a sequential nature to these courses, it is planned that Latin I will be available to the freshmen, Latin II and French I to the sophomores, French II to the juniors, and French III to the seniors. Of course the upper classmen may take Latin I, II, or French I if scheduling permits, but it will be recommended that they enroll in the course planned for the year in which it should be taken for the best sequence.

Public Speaking was introduced this year as an addition to our English department. There are 7 students enrolled in it and it is offered on a non-credit basis twice a week. It is hoped that additional students will avail themselves of this course next year.

SOCIAL SCIENCES: The courses offered in this area are Civics and Youth Problems, World History, Psychology and Sociology, Economics, United States History and Contemporary Problems. The number of students enrolled are 81 which is 62 per cent of the student body.

New maps have been purchased as aids to this program and we have also subscribed to The Science Research Associates Inc. Foreign Relations Project. The project is a supplemental study carried on by experts and

enables the students to enrich their understanding of associated social science topics. The topics studied by this method to date have been, OUR AMERICAN FOREIGN POLICY, and THE AMERICAN POLICY AND THE SOVIET CHALLENGE.

SCHOOL LUNCH PROGRAM: There were approximately 382 students purchasing the daily meals at the cafeteria for the year 1957-58. It has become necessary to increase the price of the daily meal to off-set rising operating costs. The costs were mostly due to the lack of government surplus foods to the program, especially the protein foods.

The following summary figures are given to show the comparison between the years 1956-57 and 1957-58, as of June 11, 1958.

	Total Receipts	Total Expenditures	Total Reimburse.
1956-57	\$20,930 82	\$20,641 33	\$3,259 76
1957-58	20,232 43	22,599 55	2,646 17

EVALUATION: As a member of the New England Association of Colleges and Secondary Schools it will become necessary next year to begin the self-evaluation of the school. This evaluation is a process designed to enable us to compare the school, in a great many aspects, to an evaluation list compiled by the N.E.A.C. and S.S. The list has been used successfully in a large number of schools in New England.

When our own evaluation is complete, the N.E.A.C. and S.S. will send a team of educators to the school in order to evaluate the evaluation made by the staff. The usual length of time involved in the self-evaluation and the committee evaluation consumes approximately one and a half school years.

This evaluation is not connected in any manner with the state minimum standards program. It is much more complete and exacting than that evaluation.

GRADUATES: Last June eleventh, twenty seniors received their diplomas. At the time, it was stated that:

- a) 25% intended to enroll in four year colleges.

- b) 20% intended to enroll in two year schools.
- c) 10% intended to enroll in vocational schools.
- d) 15% were going to be employed.
- e) 10% planned to join the armed services.
- f) 5% intended to take a post-graduate course.
- g) 5% were a special classification.
- h) 10% were undecided.

A school is evaluated many times by the number of students who enroll in four year colleges. The state averages of graduating students enrolling in four year colleges for the years 1955 through 1957 are as follows: 1957-24%, 1956-24%, 1955-23%. I feel that it is necessary to again point out that our percentage is above the state average in this respect.

It also is interesting to note that when using the criteria of whether students continue their education after commencement, that the percentage is increased to fifty-five per cent. (The state percentage is 38-40%) This figure increases or decreases based on the criterion used in evaluation.

There are many other aspects by which a school may be evaluated but in the final analysis it seems fair to endeavor to evaluate a school on a basis such as is used by the New England Association of Colleges and Secondary Schools. Their evaluative criteria have been developed by educational experts and have been used quite extensively throughout the country.

I would also like to mention that a worthwhile study could be made, in conjunction with the guidance department and some community organizations, in regard to what further financial assistance might become available to worthy students desirous of continuing their education but without sufficient means to do it.

FACULTY MEETINGS: Faculty meetings are held on a bi-weekly basis. The teachers meet in three groups, kindergarten through third grade, fourth grade through sixth grade, and seventh grade through twelfth grade. Occasionally we meet in one large group to discuss items that are pertinent to all three groups.

Some of the topics discussed and studied to date have been report cards, marking methods, citizenship characteristics, assemblies, mechanics of school operation, the library, and enrichment programs.

IN SUMMARY: It is my opinion that the community should be justly proud of its schools and the opportunities provided by them.

My last report mentioned that it is a constant process in education to continually evaluate the program and, with the present interest in education, it seems that this is of extreme importance if we are to maintain and develop the Walpole School System.

Continuing studies should be made in the following areas:

1. The future educational space needs especially in view of a more balanced vocational program assuming that present academic plans will be realized.

2. The salaries paid the employees of the district in relation to surrounding communities in order that we can be assured that our teaching staffs are receiving remuneration commensurate with their qualifications and duties which will enable us to maintain our staff.

In closing I wish to thank the superintendent, school board, teachers, parents, and the pupils for their cooperation this past year. Education has many ramifications but when people all work toward the betterment of an educational system there is a sense of satisfaction and pride that prevails.

Sincerely yours,

LAURIE L. HARRIS, JR.,

Principal.

Dec. 14	Newport	Lavina Wood	90

I hereby certify that the foregoing transcript of births, marriages and deaths is correct to the best of my knowledge and belief.

MARGARET M. BALLAM, Town Clerk.

YOU CAN HELP PREVENT FOREST FIRES

Twenty-five percent of all forest fires in New Hampshire are caused from careless debris burning—brush, paper, leaves, grass, etc. Most of them are started without the required permit from the local forest fire warden. The cost of extinguishing these fires annually runs into large sums of money.

According to law, responsible parties must pay the cost of putting them out. In addition, violators may be subject to court prosecution with fines running as high as (\$200) two-hundred dollars.

In the interest of fire prevention why not eliminate burning at home? Use your town dump. It has been set up for your personal convenience. It provides a suitable place for the disposal of dangerous inflammable waste material and other useless items which accumulate around the home and local stores; brush, etc. cut on your property. Eliminate the hazard of burning yourself. It will be easier for you—personally and financially.

If, however, you do burn on your premises:

1. Secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty Use your town dump

Number of local fires 6

Number of acres burned $3\frac{3}{4}$

Number of permits issued 114

CORNELIUS WOOD, District Fire Chief.

WALTER KILBURN, SR., Forest Fire Warden.
